

# DECISIVE: decentralised bio-waste management

---

Jean-Benoit Bel – ACR+

**DECISIVE**

A DECENTRALISED MANAGEMENT SCHEME FOR  
INNOVATIVE VALORISATION OF URBAN BIOWASTE

This project has received funding from the European Union's Horizon 2020 research and innovation program under grant agreement No 689229.

News

To promote a sustainable management of material resources through prevention at source, reuse and recycling

# Some of our members

DECISIVE: general information

# A DECentralised management Scheme for Innovative Valorisation of urban biowaste

- Horizon 2020 project (2016-2020)
- “Closing the organic loop”
- 14 partners
- Launched in September 2016

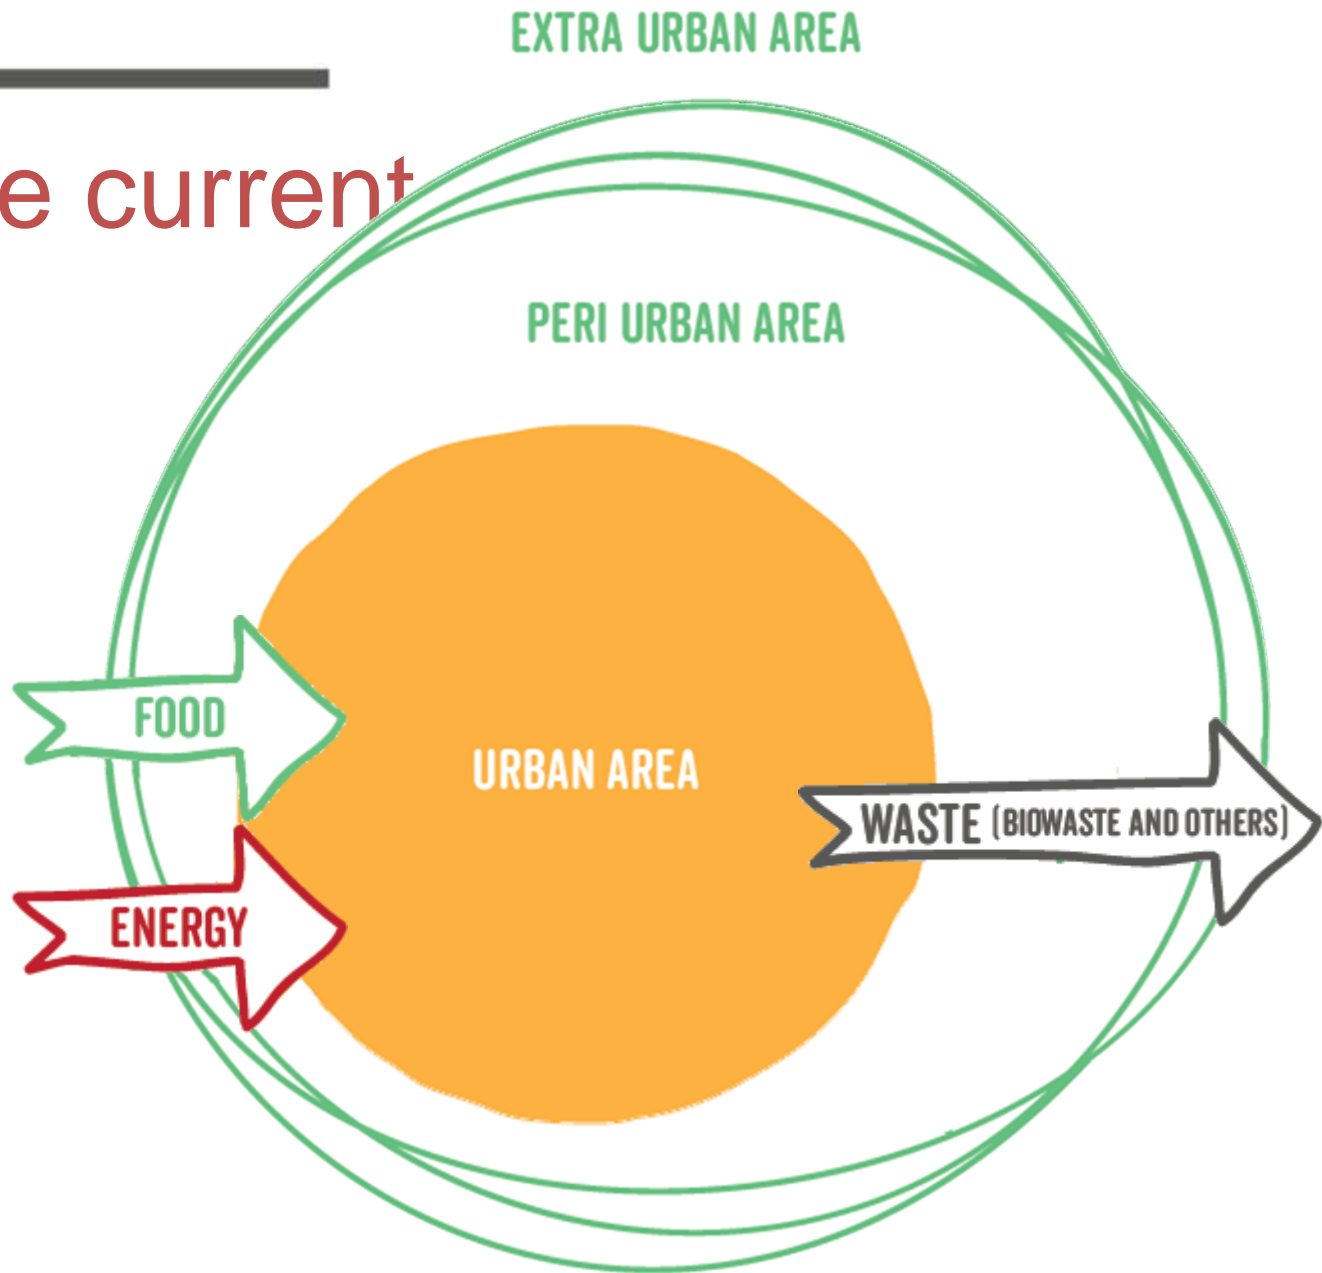

# DECISIVE: partnership

DECISIVE: concept

# The current

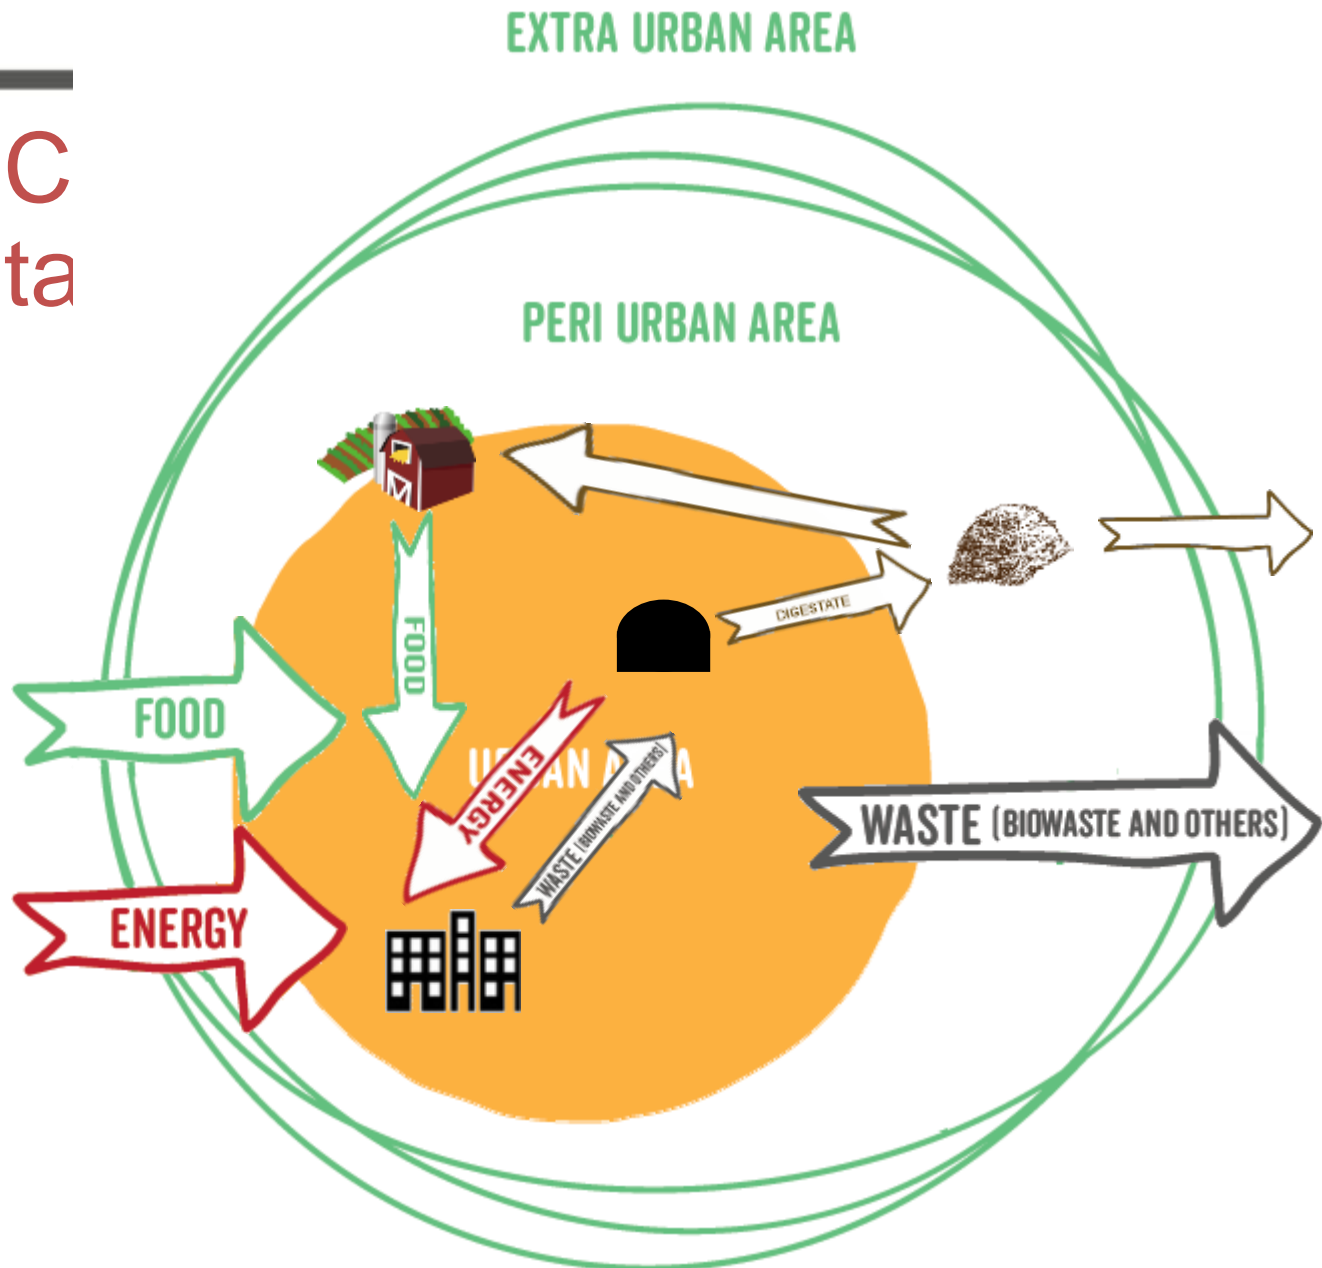

---

# The current situation

- Increasing demand of food and energy in cities
- Increasing quantities of urban (bio-) waste
- Much biowaste still landfilled

# DEC meta

---

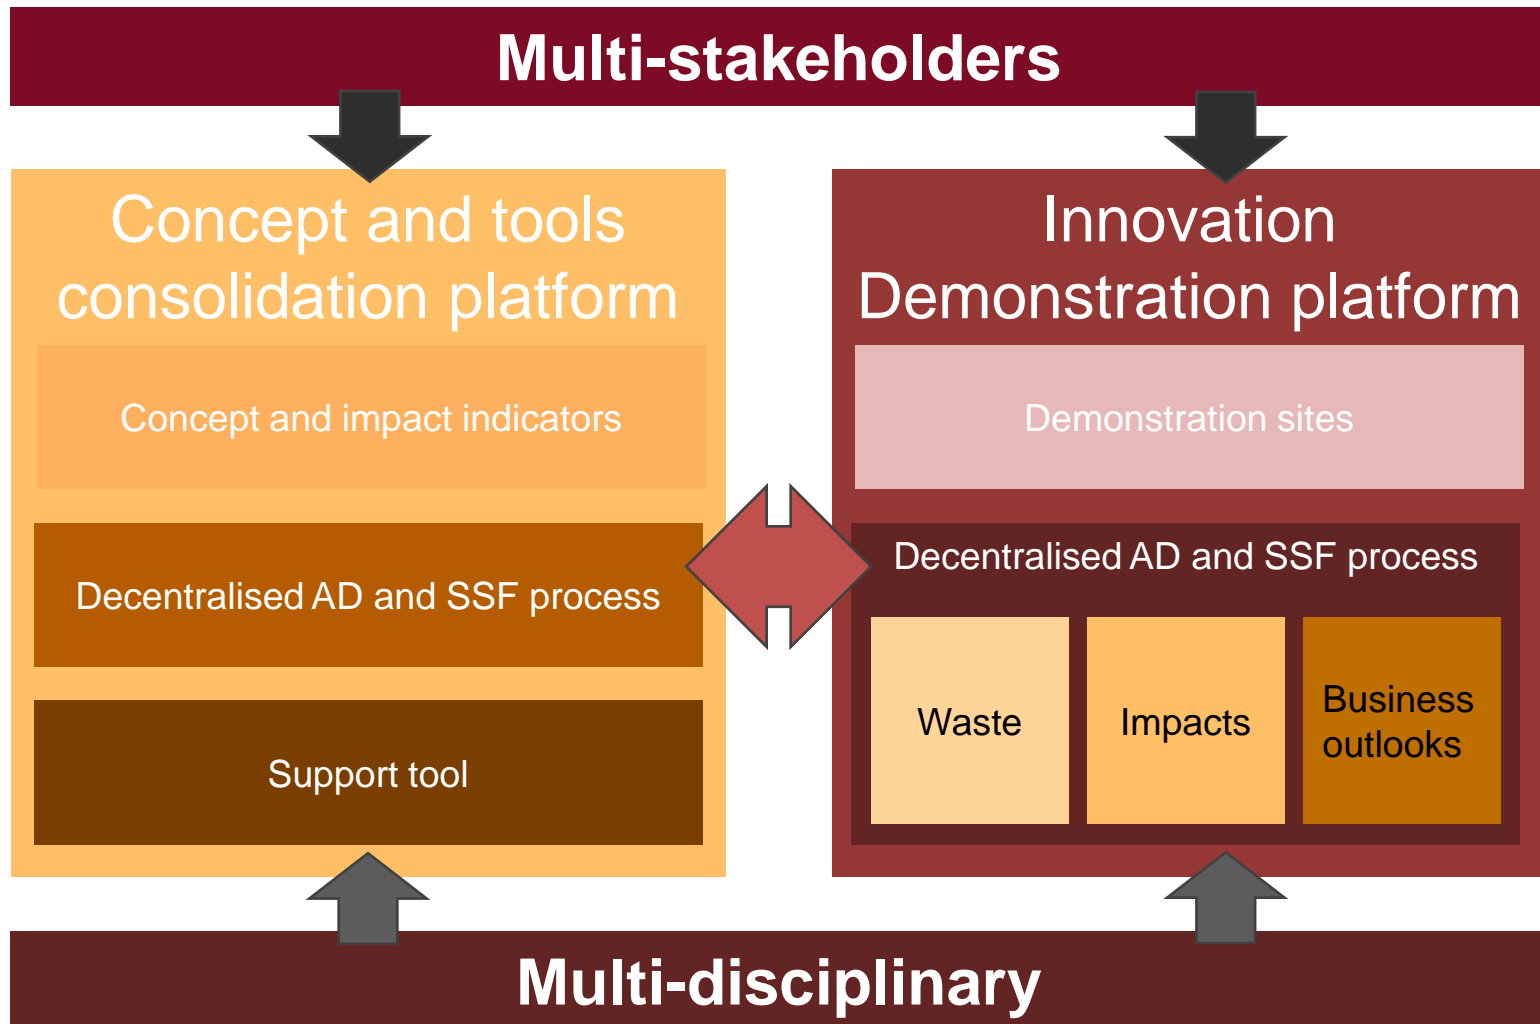

# DECISIVE: concept

-  Micro-scale anaerobic digestion plants
-  Solid-state fermentation process
-  Decision support tool
-  Communication and training material

DECISIVE: approach

# A double work platform

---

# Current activities

- Pre-definition of process specification / lab tests for the processes
- Inventory of bio-waste collection schemes
- Socio-technical assessment of bio-collection systems (surveys)
